BRYAN CONSTRUCTION ACCEPTS BEST-PROJECT AWARD

Local contractor's Bal Seal project honored by *ENR* magazine at ceremony in Denver

DENVER, Colo. (October 30, 2014) – General contractor Bryan Construction received the *ENR Mountain States* award for 2014 Best Project – Manufacturing for the new Bal Seal Engineering plant at a ceremony in Denver today.

The 155,000-square-foot plant, described by Colorado Springs Mayor Steve Bach as looking “more like a Four Seasons Hotel” than a manufacturing facility, was designed by locally based CSNA Architects, and officially opened in February. It is expected to bring an additional 90 jobs to the Springs by the time it reaches full capacity.

A panel of eight judges from all areas of the industry—architects, general contractors and engineers—selected winners in each of categories. The awards are split into two areas (Intermountain and Colorado/Wyoming & Plains States), to correspond with their respective awards events. Projects are covered in more detail in the October issue of *ENR Mountain States*.

“We’re honored to be recognized by a prestigious organization like *ENR*,” said Scott Bryan, founder of the Springs-based general contractor. “We were fortunate to have great partners in Bal-Seal, along with our old friends CSNA Architects, who both worked with our talented team from the very earliest stages. We’re also proud to have been a part of something that will inject vigor into our local economy.”

This was Bryan Construction’s second award for the innovative structure. Bryan also won the 2014 Bluebeam eXtreme award for Industrial/Energy projects for its use of a paperless software program called Bluebeam Revu, with which every blueprint, email and change order was in a PDF file, which was linked to all corresponding documents. The savings on printing costs were significant, and were passed along to the customer.

ABOUT BRYAN CONSTRUCTION: With offices in Colorado Springs, Denver, Fort Collins, and Dubai, Bryan Construction has been committed to performance excellence for over 36 years. Firmly established relationships with clients, subcontractors, design firms and suppliers, combined with superior customer service, uncompromising quality, and a desire to succeed have securely positioned Bryan Construction as one of the area’s most respected, reliable, and accomplished general building and construction management firms.
